ALL MPHC PRODUCTS NOW REGULATED

DOHA, QATAR - Mesaieed Petrochemical Holding Company ("MPHC" or "the group"; QE: MPHC), a subsidiary of Qatar Petroleum partially floated on the Qatar Exchange, and one of the region's premier diversified petrochemical conglomerates with interests in the production, distribution and sale of olefins, polyolefins, alpha olefins and chlor-alkali products, issued a statement advising shareholders of the recent regulation of all of Q-Chem and Q-Chem II's products.

In accordance with Decree Law (11) of 2012, Qatar Chemical and Petrochemical Marketing and Distribution Company QJSC (trading as "Muntajat") has the exclusive rights to purchase and sell the State of Qatar's production of chemical and petrochemical regulated products to the global market. As per a Ministerial Directive issued on April 13, 2014, high density polyethylene ("HDPE"), medium density polyethylene ("MDPE"), normal alpha olefins ("NAO"), 1-Hexene, 1-Octene, 1-Butene, ethylene and pygas have now been designated as regulated products. The group's remaining products, namely, caustic soda solution, ethylene dichloride ("EDC"), vinyl chloride monomer ("VCM") and hydrochloric acid ("HCl"), were designated as regulated products prior to the incorporation of MPHC on May 29, 2013. Accordingly, all of the chemical and petrochemical products of MPHC are now designated as regulated products.
